

Understanding Our Slavery: Consumer Monopoly Consolidation

www.UnderstandingOurSlavery.com

The Drug Dealers & the Company Store – Monopoly/duopoly corporations that poison the population with excessive sugar, aspartame, BPA/BPS, rBGH, artificial food colorings, glyphosate, fluoridated water, glutamates, and refined grains many scientifically designed and marketed to be physically and psychologically addictive. Most significant industrial production of consumer goods concentrated into a handful of duopoly companies financed to be a predatory monopoly force within their own industries by the money center banks and their central bank that have bought up the world with the paper tickets they create out of thin air using fractional reserve banking. Shop Local. Break the Chains. Know Your Farmer. Grow what you can. Barter. Boycott and divest from these companies.

Glyphosate is the active ingredient in Monsanto's Roundup herbicide. Monsanto and Dow are chemical companies that make poisons for the military ([Agent Orange](#)) who are now adding toxic poisons to the US/global food supply including glyphosate, [rBGH](#), [Aspartame](#), and [Fluoride](#) among others while [monopolizing seed companies](#) and [genetically modifying the seeds in harmful ways](#) in what appears to be an effort to control/poison the food supply. Glyphosate can be harmful to human beings in concentrations of as little as 0.1 parts per billion (ppb).

[Understanding Our Slavery](#) is both a book and series of one-page visual overviews of concepts hidden from the public by inter-generational organized crime that has been controlling the flow of information in society. Their "Propaganda Matrix" includes control of the government, government schools, scouting, intelligence agencies, military and police training, and a weaponized media system of 6 companies running hundreds of subsidiaries to give the population the illusion of choice and diversity-of-opinion while propagandizing, deceiving, and distracting us from the reality of our tax slavery and authoritarian control. These [one-pagers](#) are designed to be printed out and shared but with accessible PDF versions with active hypertext links. We have an 8GB Flash Drive/Dropbox called: [The Liberator](#) with additional evidence of government and media criminality.
